

Statement of Purpose

Glad to introduce myself as Mrs. Sunita Kharel Dhakal, daughter of Mr. Netra Prasad Kharal and Mrs. Menuka Kharal permanent residence of Sunuwal-07, Nawalparasi, Nepal is applying to this university to possess Pre Masters leading to Masters in Accounting as, I want to uplift my carrier as an account specialist. I am very delighted to state that I am writing this SOP to enroll at Flinders University, Adelaide Australia finding it is a better place from different perspective to continue my study.

As per the academic profile is concerned recently, I have completed my Bachelor level in Business Science (BBS), 3 Years course from AIMS college affiliated to Tribhuwan University in 2013 with 49.93%. Similarly, I have successfully accomplished my intermediate level (10+2) from Oxford Higher Secondary School with 62.80% in 2010. Prior to this I have passed my S.L.C (School Leaving Certificate) with 71.25% from Sakura Memorial Boarding School in 2008.

To my academic profile, I want to make you clear about my gap period. After completion of my bachelor level, University delayed in publishing result and issuing the transcript though it is mentioned that date 2013 as a completed year in transcript. Moreover, it was not easy to book IELTS Test date because of date unavailability. Finally, I got the best date on 7th May, 2016. I decide to utilize the leisure time by enrolling in Kist Bank as intern from 27th April, 2014 to 9th June, 2014 and again in Siddhartha Development Bank from 13th November, 2014 to 9th January, 2015. This was not enough so I started job at Devdaha Saving and Credit Co-operative Limited as an Accountant Assistant from 16th February, 2015 to 15 February, 2016.

On 7th May, 2016. I took the IELTS Test and the result was published on 19th May, 2016 with overall band score 6. The next task was to research about the course and University. I started hunting for the course and University and I found Flinders University of Adelaide, Australia is best among others to continue my study. I visited University Courses International entry requirement tuition fees and course content. Flinders University enjoys a well-justified reputation for excellence in teaching and research. It also has a long-standing commitment to enhancing educational opportunities for all and a proud record of community engagement. It aims to inspire achievement in students and staff and to prepare graduates to embrace the challenges and opportunities that lie ahead.

Talking about the location, Adelaide, I have heard that in Adelaide we can do more with less as the cost of living and expenses is low than other cities. It has a moderate climate almost similar to that of Nepal. Adelaide is a quick and easy place to get around, with an integrated bus, train and tram public transport system connecting all parts of the city and suburbs.

As I am from Management background and accounting was my major subject. Moreover, I choose this course as my carrier pathway from which I can grab all the knowledge to become a potential account specialist. I will give continuity to my study by enrolling in Master's level too taking the same subject. I believe that this academic strength of me demands the pre masters course which will fully enable me to explore the best what I want to be. The Master of Accounting program provides students with exposure to advanced theories and topics in the field of accounting. It offers an opportunity to pursue specialized interests and a broader knowledge of the accounting discipline in general. This course teaches how to prepare, interpret and use the financial information of the business world to aid in making business and financial decisions. This course is great for students like me who is willing for exploring the field of accounting as well as for future careers.

Learning has been one of the few passions of my life. I was always in search of some newness in my learning regarding the place, people and institution. To continue my studies, I thought of taking an approach to some other countries. Among several countries I choose Australia finding it is a better place from all perspectives I think Australia is a leading global education power house because of its quality education and international reputation. Australia has high range of high ranking college and University where students can learn practically along with high technology, Australia is a peaceful country with good geographical structure where students can learn and live in homely environment so, it has become a destination for students for study. In the contrary, Nepal has not international reputed Universities. There are limited Universities with limited course and module. There is no scholarship scheme for deserving students. This lead the gaps in Studies. So, I am interested to Australia because it has quality education and the degree from the university is worldwide acceptance.

After the completion of my study in Australia. I will be back to my country to use my knowledge for the betterment of my country. I want to use my knowledge and experience in accounting sector of my country. And It is only possible if I get chance to study in Flinders University. I will be able to shower my knowledge to the students and people who are interested in this

field. I will also work for a reputed company as business and accounting is used in almost every sector. So, there are many scopes in this field in my home country. After gaining a decade experience I will start my own business in my home country.

In my family my father in-law and brother in law runs a business, my mother in law is a housewife, my sister in law is job holder at bank. I got married to Mr. Sagar Dhakal on April 22, 2015 and he is a student. I am trying to applying for my higher education in Australia with my spouse as my dependent. My family will sponsor me for my studies during my stay in Australia.

I look forward to enter on new educational experience in Australia. I will abide by University's and Australian laws and will not break any student's visa condition. I will be looking forward to a positive response to my application for a permission to enroll.

Thank you for your kind consideration.

Sincerely,
Sunita Kharel Dhakal
